EXPERIENCE

Fiserv Principal Designer

Jan 2020 — Present   San Diego, CA/Remote

I successfully created a highly scalable Design System, driving seamless collaboration with the development team and enabling efficient scalability for future design endeavors.

As a principal design contributor to Fiserv, I have played a vital role in establishing new standards for UX/UI design quality and accessibility. By prioritizing accessibility, my designs have empowered users from diverse backgrounds to effortlessly interact with our products, ensuring an inclusive and user–centric experience.

Kleinfelder Senior UX Designer

Aug 2012 — Oct 2020   San Diego, CA/Remote

Demonstrated exceptional communication and leadership skills, effectively engaging with stakeholders at all levels. Utilized qualitative and quantitative research methods to gather valuable insights and transform them into actionable plans.

Nelnet Lead UX/UI Designer

Sept 2010 — July 2012   Denver, CO

Meticulously maintained a high standard of design, ensuring pixel–level detail and unmatched quality in every aspect. Developed and implemented streamlined design processes, optimizing efficiency and effectiveness across projects.
